
Mika™

The slim, simple, stackable, soft shell chair

Mika sits above most others in its class – and not just because it is a multi-award winner. Mika is elevated. Upholstered or non-upholstered, it reaches new heights in what a molded shell chair can be. From top to bottom, the design flows. Back and forth, the design rocks with 15 degrees of flex. Up and up, the design pushes an upholstered seat farther than ever before. And in the end, you arrive at a place of sit-ability and stack-ability hard to find in something that looks this good.

DESIGNED BY ITO DESIGN

California born and bred

We're a leading manufacturer of commercial solutions in the U.S. — and #1 in task chairs. From tables and lounge to screens and more, we've been the go-to destination for comprehensive, build-to-order solutions for almost 25 years. We combine award-winning design with the fastest lead times around, and our design and planning services can turn product innovation into your space inspiration. We're able to build almost any specification you want, deliver it when you need it, and offer a level of value no one can match. It's all part of our indie California spirit and drive to be the one place you go for any (and every) space.

The ripple effect

Mika makes waves with a design that stacks up well. From the very first sit, you'll see it's light in scale and not on performance. And while Mika provides the kind of durability you want in a multipurpose chair, there's ergonomic engineering throughout. The sculpted shell offers a natural cradle while the flex-ridge back and optional 2/3 upholstered seat lend comfort to lounge a little longer.
