SitOnIt • Seating[®]

California born and bred

We're a leading manufacturer of commercial solutions in the U.S. — and #1 in task chairs. From tables and lounge to screens and more, we've been the go-to destination for comprehensive, build-to-order solutions for almost 25 years. We combine award-winning design with the fastest lead times around, and our design and planning services can turn product innovation into your space inspiration. We're able to build almost any specification you want, deliver it when you need it, and offer a level of value no one can match. It's all part of our indie California spirit and drive to be the one place you go for any (and every) space.

Mobile, adaptable and comfortable

Gone are the days where you clock in, stay in your cubicle and clock out. Dynamic environments call for adaptable seating that rolls with the punches. Our Wit family does exactly that. Because this is a design inspired by truths about how people work.

A blueprint for coziness

Draw on white, black and gray tones for in-style, on-trend alternatives to vibrant hues. Four soft woven meshes, two cool colored frames, upgraded casters and more create residential-inspired comfort in any space.

On any given day, you may be working in multiple places throughout the office. Stay quick on your feet—and ready for anything—with the easy-grip, built-in handle of the Wit.

Thintex: The triple threat

The Front: A design layer in breathable mesh or sleek Thintex fabric that's easily cleanable and durable

The Middle: A super comfortable layer for that plush, pillowy feel

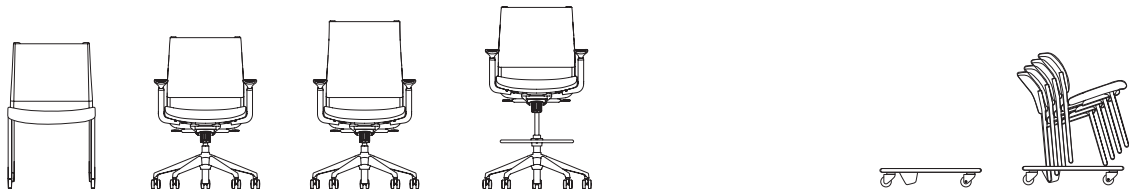

The Back: A high-performance mesh layer that feels like memory foam and springs back for extra support

Find your sweet spot

Good back support feels different for everyone. That's why an easily adjustable lumbar mechanism comes standard on all of our task models—so any Wit can become your Wit.

Specifications
